Hello Marc,

I have information that Oron owner (Fedor) put [oron.com](http://oron.com) site down in order to simulate "loss of business" in court. Their servers with data are still in Leasweb data center. Just have court to make a query to the Leasweb if that's possible.

Now Fedor is looking for the way how to get his money (approx 2M) back, he do not care about the site anymore (they're running new site [novafile.com](http://novafile.com)).

That's all fake. Like I said before, real owner is Fedor Goncharov. He's living in Hannover, Germany. I talked with him several times.

Here's his contact info: <http://firma-24.de/fedor-goncharov-viahof-gmbh-hengstmannstra%C3%9Fe-hannover>

And yes, that's true that he also own [pornbb.org](http://pornbb.org) and [forumophilia.com](http://forumophilia.com) porn forums.
