CAPTION CONTEST: Matt Allen Show > TSA Pat-Down Technique

[E-mail This Page](#) | [Print This Page](#)

Earlier this month, the [TSA](#) instructed airport security officers to use a more aggressive pat-down search technique that allows the officers the right to probe would-be passengers prior to allowing them access to the plane.

Pictured here is an actual photo of a TSA search.

Now...it's your turn. Caption the photo and win the grand prize of praise and glory from [The Matt Allen Show](#).
