**Thumbnail image source code:** As with the video player, the filenames and directories referenced match with the titles used by sharkmp4 for the related works. Both the phpThumb.php calls, the directory name and filenames all agree with the visual conclusions that these images are from the same works as uploaded by sharkmp4. As with the video player, the images are also freely accessible. Navigating to, for example, “[http://naughty-hotties.com/tour/php\\_thumb/phpThumb.php?src=../videos/rosemary\\_radeva/rosemary\\_radeva\\_index.jpg&w=240&h=360](http://naughty-hotties.com/tour/php_thumb/phpThumb.php?src=../videos/rosemary_radeva/rosemary_radeva_index.jpg&w=240&h=360)” returns the same thumbnail as called by the page. Navigating to “[http://naughty-hotties.com/tour/php\\_thumb/phpThumb.php?src=../videos/amy\\_brooke/amy\\_brooke\\_index.jpg&w=240&h=360](http://naughty-hotties.com/tour/php_thumb/phpThumb.php?src=../videos/amy_brooke/amy_brooke_index.jpg&w=240&h=360)” returns a thumbnail from the Fan Favorites – Amy Brooke video.
